

Equipment Name:	Dell PowerEdge 940 server
Inventory Number:	F 00529
Type of Equipment:	Computing equipment used for numerical simulations
Location:	Department of physics/subdepartment Atomic, molecular and optical physics
Access:	Yes
Technical Characteristics:	Two Dell PowerEdge 940 connected via infiniband connection. Each server has 80 CPU cores Intel Xeon Gold 6230, 256 GB RAM, 1 TB SSD
Year of Manufacture:	2019 and 2022
Services:	Used for numerical simulation and computational physics
Working Hours:	Non-stop
Contact:	benjamin.fetic@pmf.unsa.ba milo@bih.net.ba
